Thank you for choosing Blink!

# Charging Instructions

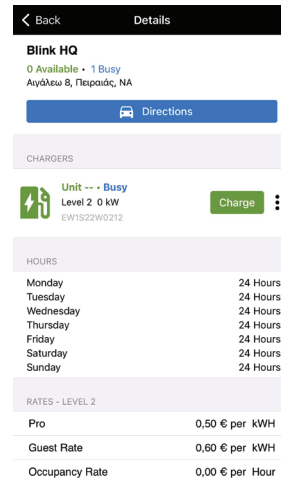

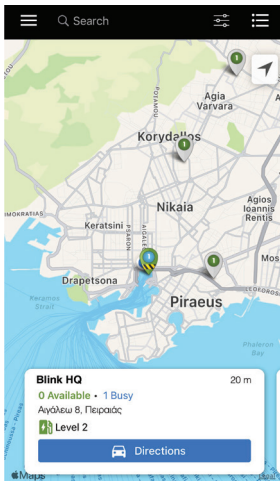

## Charger Mode 3 - AC

### Blink Mobile App

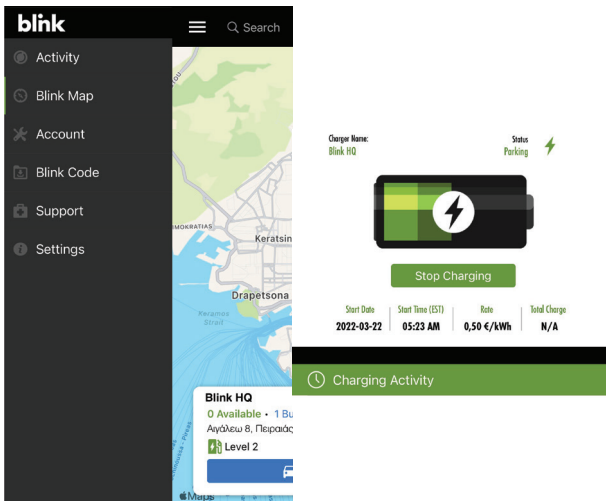

**1** To start charging session, connect the cable to the socket and the car and wait until the LED lights turn yellow.

**2** Select the charging station from the map.

**3** Select the socket. The LED lights turn blue, and the charging session begins.

**4** To complete the charging session, tap Stop Charging, selecting from the menu Activity.

# Charging Instructions

## Charger Mode 3 - AC

### Using Blink Card

- 1 Connect the cable to the socket and the car and wait until the LED lights turn yellow.
- 2 Tap the Blink Card on the card reader, located above the charger's socket.
- 3 In a few seconds, the yellow LED lights turn blue and the charging session begins!
- 4 To complete charging session, tap the Blink Card again to the card reader. The LED lights turns yellow, the cable releases and you can now remove it from the vehicle and the charger.
