

Ooni Volt 12 Electric Pizza Oven

Approved Product Copy

Short Description:

Designed for indoor and outdoor use, the Ooni Volt 12 Electric Pizza Oven cooks epic 12" pizzas in just 90 seconds, all from the comfort of your own kitchen or back garden.

Long Description:

Introducing Ooni's first indoor, all-electric pizza oven. Ooni Volt 12 cooks delicious 12" pizza in just 90 seconds from the comfort of your kitchen, all year round. This ultra convenient oven can also be used outdoors for maximum versatility.

The Ooni Volt pizza oven has a generous 13-inch cooking area and reaches its maximum heat of 450 °C (850 °F) in just 20 minutes.

This oven is perfect for both novice pizza-makers and experts because it combines easy-to-use pre-programed settings with the ability to fine-tune the oven's settings for different pizza styles such as Detroit, Neapolitan-style and more.

All you have to do is set your desired oven temperature and launch your pizza into the oven. It really is that simple!

Key Headlines:

- Ooni's first all-electric pizza oven, offering maximum versatility and performance with a beautiful, modern design.
- Make awesome pizza inside or outside - use Ooni Volt in your kitchen, or take it outside for an alfresco pizza-making experience.
- Ooni Volt 12 offers accessible innovation for world-class pizza.

Where to Store:

Keep your Ooni Volt safe and sound by storing it indoors in a dry area. The Ooni Volt 12 Cover is also available as an accessory for added protection to ensure it stays dry and free from dust and debris. Ooni Volt must be completely cool and dry before attempting to move or store.

How to Extinguish:

To turn off your Ooni Volt, simply press the power icon on the door. The internal fan will continue to cool down the electronics inside, so be sure to wait 45 minutes before switching off at the main switch and unplugging.
